

Project Status Report FINAL

Project Information:

- **Project Name:** NBP Crasher
- **Project Manager:** Przemysław Kowalski
- **Report Date:** 19.01.2025
- **Project Duration:** 08.12.2024 – 31.01.2025

Testing Environment:

- **Operating System:** Fedora Linux (41)

Tests:

- **Scope:** Functional and manual testing, efficiency tests, and acceptance testing.
- **Time:** 3h
- **Results:** All previously reported issues have been resolved. Acceptance testing was conducted and confirmed full compliance with the documentation, with no deviations identified.

Key Achievements:

- Fixed all issues mentioned in previous raport
- Completed acceptance testing without any discrepancies.

Current Status:

- **Milestones Progress:** Test environment deployment and frontend data display fixed successfully
- **Current Tasks Overview:** Application is ready for production deployment.

Issues and Challenges:

- None.

Upcoming Milestones and Tasks:

- Application handover ([#40](#)).

Recommendations:

- The application is ready for client delivery following the successful resolution of all issues and confirmation of full compliance with documentation.
- Ensure all team members are prepared for the production deployment phase.
