Project Status Report no 4

Project Information:

- **Project Name:** NBP Crasher
- **Project Manager:** Przemysław Kowalski
- **Report Date:** 13.01.2025
- **Project Duration:** 08.12.2024 – 31.01.2025

Key Achievements:

- Not found any issues on the backend during testing phase.

Current Status:

- **Milestones Progress:** Deployment & manual tests are still in progress,
- **Current Tasks Overview:** Preparing for manual retests and fixing deployment to test environment. Waiting to fix test environment deployment before the production.
- **Project Completion Percentage:** 90% (includes frontend, backend, test environment deployment attempt, automated & manual testing phases).

Issues and Challenges:

- During the testing phase (#38) 2 issues were found:
  - Deployment to test environment (issue #57),
  - Displaying the dominant (issue #56).

Upcoming Milestones and Tasks:

- Fix deployment to the environment (issue #57),
- Fix displaying the dominant (issue #56),
- Manual retests (#38),
- Deployment of the application to the production.

Recommendations:

- Conduct thorough manual testing to identify and resolve any issues before deployment to the production environment.
- Ensure all team members are prepared for the production deployment phase.
